of NORTH CAROLINA

Register on-line at [The National Paideia Center](http://The National Paideia Center).

PAIDEIA  
ACTIVE LEARNING

Would you like to have time to finish planning a complete Paideia Project focused on the key ideas of your curriculum?

Join us for the Advanced Paideia Project Institute to fully align your curriculum, instruction, and assessment plans. The goal for this Institute is to help you design the essential "micro components" of a Paideia Project: your daily lesson plans, targeted assessment tools, and a detailed student calendar.

Terry Roberts, PhD  
Director

Given the scope of a Paideia Project it is easy to brainstorm ideas and get a plan started. This Institute is about finalizing critical details to ensure a high quality student production or performance of real value to an audience outside the classroom.

Laura Billings, PhD  
Associate Director
